TO WHOM IT MAY CONCERN

As the coordinator of the PhD programme in Evidence Based Medicine, School of Medicine, University of Split, I confirm that all doctoral students in our programme who will fully participate in the OMICs in biomedical research conference at MedILS, Split, 8 to 12 June 2015, will earn 5 ECTS from their study programme. Education of doctoral students is one of the goals of the conference. Our PhD programme does foresee for doctoral students a participation in one of the summer school or conference dealing with topics from familiarisation with new OMICs approaches in understanding of therapy genes and proteins.

Coordinator of the PhD programme,

Professor Željko Dujić
